PCM 显示仪表 FUSION

产品型号:

FUSION

融合大屏幕

模型: 融合

主要特点:

数字的大小从 57mm 400mm 范围。

正在监视的变量的清晰数字读出。

智能造型, 超薄, 易于安装。

数据表: 大屏幕显示

这些大型显示器接受最常见的脉冲输入如接触开关, NPN 或 PNP 接近传感器, 24V PLC 脉冲等, 他们

可以很容易地扩展给每脉冲 1 计数, 或在您的首选工程单位读。

因为缩放是数字的, 所以精度很好。规模因素可以是非整数, 例如 1.245 等显示有 24V 励磁输出电压可

用于有源传感器和编码器。有几个数字大小可供选择，以适应您所需的观看距离。

适用于生产计数和显示[特殊页]，物料长度计数和显示，距离计数和显示，制造周期时间，拒绝计数和显示，任何具有脉冲信号的物理变量和更多！

如需更详细的产品规格和完整的配件清单，请下载产品数据表。

手册：大屏幕显示

为 *fusion-l* 4 位显示产品手册可供下载。对 6 位和 *fusion-p* 版本请联系 PCM。

NOTE: Sizes shown are not the actual size of the digits – they have been scaled down to fit onto page.

Choose colours to match your corporate image, to differentiate groups of displays or to suit the ambient lighting conditions.

We offer indoor and outdoor brightness versions of the red, green, blue and yellow displays.

Red

Traditional and the most popular colour (also the lowest cost colour option). Ideal for outdoor mounting.

Green

Preferred by those who consider red is an alarm colour. Best suited to indoor use, as green is less 'punchy' in direct sunlight.

Yellow

Ideal for outdoor and roadside applications. Good brightness and contrast. A neutral colour just as clear as red.

Blue

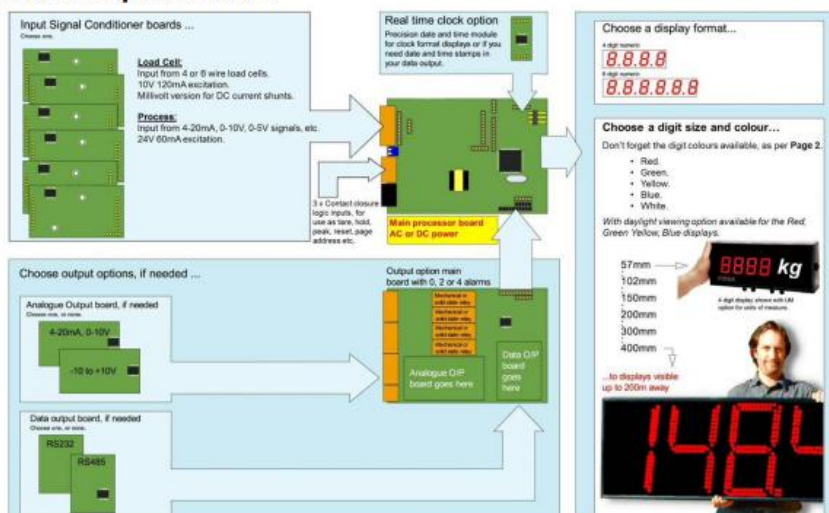

Fashionable and 'cool' to the eye. Adds a distinctive and sharp appearance to the display.

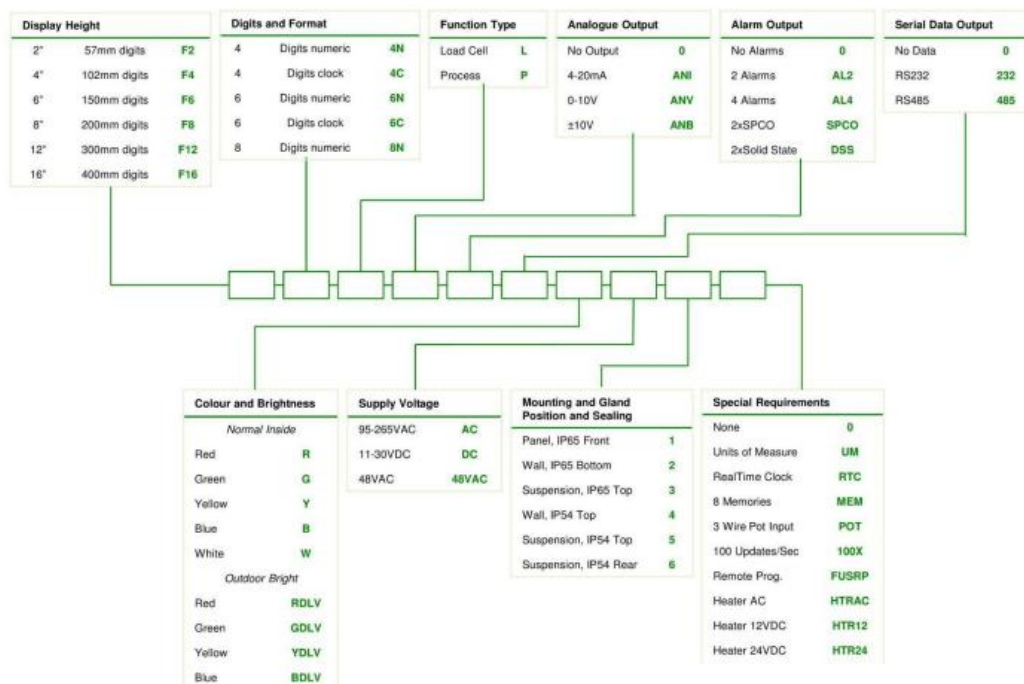

White

Entirely neutral, neither warning red or AOK green, or cool blue. Modern, with a retro feel, as the earliest displays used white bulbs.
